INNOVATIVE ENTRY DOOR SYSTEMS

Clopay, makers of America's Favorite Garage Doors®, has expanded upon its heritage of innovation, brand leadership, and service by introducing a line of exterior entry door systems that not only complements its most popular garage door designs, but are as durable and energy efficient as they are attractive.

CREATE GREATER CURB APPEAL

Clopay's entry door systems capture the essence of a home with beautifully innovative door designs paired with decorative glass and complementing sidelites, transoms and garage door windows, all designed to enhance any home's architectural style.

THE INTELLIGENT ENTRY DOOR SYSTEM

Craftsman Collection Fir Grain Fiberglass Entry Door
System Stained Walnut; Shown with Cimarron™
Decorative Glass.

America's Favorite Doors®

From authentic woodgrain details to energy efficient, strong construction, Clopay® Arbor Grove™, Rustic and Craftsman Collections, and smooth fiberglass and steel entry door systems are a beautiful choice for every home. Our systems feature state-of-the-art components to give you peace of mind when it comes to security, durability and energy efficiency.

HOW TO CHOOSE YOUR ENTRY DOOR

1 CONSIDER YOUR ENTRYWAY

Does your opening require a single door, or a door with one or two sidelites? Is there room for a transom? Clopay offers any combination, complete with your choice of finish and hardware.

2 CHOOSE YOUR DOOR STYLE

Clopay offers a wide array of doors, sidelites and transoms to complement the architecture of your home. For the authentic look of wood, select from our Arbor Grove™, Rustic or Craftsman Collection fiberglass doors with woodgrain details in Cherry, Mahogany, Oak or Fir. If you prefer a painted look, smooth fiberglass and high-definition steel doors are a more economical, yet equally durable choice.

Arbor Grove™ Collection

Rustic Collection

Craftsman Collection

Smooth Fiberglass

smarter by design

More than just a beautiful entry door, Clopay features a proven system of premium door panels coupled with superior components and assembled under the highest quality standards. Durable and reliable, Clopay entry door systems offer years of performance, energy efficiency and dependability.

COMPONENTS OF A CLOPAY® ENTRY DOOR

Grained fiberglass example shown. Steel door differences noted.

PREMIUM FIBERGLASS DOORS

- Cherry, Mahogany, Oak and Fir grain patterns
- Smooth fiberglass doors feature a brush etching pattern
- Elegant panel designs
- Won't dent, rot, crack or rust
- Low maintenance
- Available with Clopay factory finish

See pages 14-15.

INSULATED DOOR LITES

- Tempered, triple glazed decorative glass¹ helps keep your home warmer in winter, cooler in summer

DURABLE LITE FRAMES

- Resist moisture and seals glass tight to the door
- Won't expand or contract, warp, sag, shift or twist during extreme temperature changes

Arbor Grove™ and Rustic Collections natural woodgrain frames (stain/paint grade)

Craftsman Collection natural woodgrain frames (stain/paint grade)

Smooth fiberglass flat profile, plugless lite frames with brush etching to match the door (paint grade)

Steel door white textured frames (paint grade)

COMPOSITE TOP AND BOTTOM RAIL

- 1" top rail; 1-1/2" bottom rail
- Rot resistant; helps eliminate water infiltration

Internal View

POLYURETHANE FOAM CORE

- Proven effective insulation
- Energy efficient and durable

4-1/16" HINGE AND LOCK STILES

- A pair of robust 4-1/16" stiles run down each side of the door slab. The stiles are made of 3-7/16" engineered wood and a 5/8" maple cap
- Rigid, resists bowing
- True square edge, just like a real wood door

¹ Clarion™ collections feature double glazed insulated glass.

Most Clopay entry door systems are Energy Star certified. See your Clopay Dealer for full details.

SILL AND HINGE COMPONENTS

Grained fiberglass example shown.

WEATHERSTRIP

- Flexible
- Helps seal tight
- Easily replaced

CORNER SEAL PAD

U.S. Patents Pending

- Uniquely designed to block air, water and light at the bottom corners of the door

COMPOSITE ADJUSTABLE SILL

- Adjustable threshold with sealed adjusting mechanisms for performance over time and an optimal seal against four-finger sweep
- High dam, narrow cap design provides barrier against air and water infiltration
- All composite construction—maintenance free, withstands deterioration over time

U.S. Patents: 6,789,358; 7,350,336; 8,522,483; D638,958 and U.S. Patents Pending

Aluminum Approach Composite Substrate Adjustable Threshold

BALL BEARING HINGES

- Three ball bearing hinges help prevent wear and sag
- Available Brass, Patina and Satin Nickel finishes complement sill and glass coming

FOUR-FINGER SWEEP

- Helps to eliminate air and water infiltration

HINGE AND SILL FINISHES

Patina Satin Nickel Brass

JAMB MATERIALS

Standard jamb materials shown. Additional options are available. See your Clopay Dealer for options and additional information.

GRAINED FIBERGLASS

GRAINED COMPOSITE JAMBS, MULL POSTS AND BRICKMOULD

- Composite material will not absorb or wick moisture
- Helps prevent warping, rotting and splitting
- Standard on all grained fiberglass entry door systems
- Can be finished to match door stain or paint color

Composite Mull Posts

Composite Brickmould

SMOOTH FIBERGLASS

SMOOTH COMPOSITE JAMBS, MULL POSTS AND BRICKMOULD

- Composite material will not absorb or wick moisture
- Helps prevent warping, rotting and splitting
- Standard on all smooth fiberglass entry door systems
- Can be finished to match door paint color

STEEL

FINGER-JOINTED DURA-FRAME™ JAMBS, MULL POSTS AND BRICKMOULD

- Durable Alaskan Yellow Cypress is finger-jointed to the bottom of a pine jamb at its most vulnerable point, making it naturally resistant to rot to extend the longevity of the frame
- Standard on all steel entry door systems
- Can be finished to match door paint color

FIBERGLASS ENTRY DOORS

ARBOR GROVE™ collection

FIBERGLASS
LIMITED LIFE WARRANTY

The technology behind our grained fiberglass entry doors is a patented process that authentically replicates the look and feel of real wood grains. With

random grain depths and all the natural characteristics of wood, you won't be able to tell the difference.

See individual glass pages for complete door, sidelite and transom designs.

This premium hardwood is native to North America and a favorite among today's homeowners for its attractive grain. Our Cherry fiberglass entry doors accurately reproduce the details of the woodgrain from its natural luster to its rich, warm glow.

Dentil shelf available only on inswing doors. Not available on outswing doors.

FIBERGLASS ENTRY DOORS

SMOOTH fiberglass

Smooth fiberglass doors offer a clean look with high-quality construction and polyurethane insulation for added strength and energy efficiency. Beautiful on the outside and the

With modern style and minimal details, this Smooth Fiberglass door is a departure from any other fiberglass door. Sharp panel edges with a crisp and clean aesthetic provide a contemporary look to meet the demands of today's modern homeowners. A finely etched surface texture allows for superior paint adhesion. Unlike wood or steel doors, they won't crack, split, dent or rust and are engineered to last a lifetime, offering all of the performance and energy efficient benefits of fiberglass.

inside with robust construction for long-lasting performance. It's the only door in the industry to feature 4-1/16" engineered stiles that run the full length on each side of the door to keep the door straight and provide added stability for locksets and hinges. A composite bottom rail is rot-resistant to discourage moisture penetration.

See individual glass pages for complete door, sidelite and transom designs.

20 minute fire-rated doors are available. Additional charges apply. See your Clopay Dealer for availability.

CLOPAY® FACTORY FINISH

Clopay doors feature a factory finish stain and paint system, a custom two-part finish that is durable, long-lasting and warranted for five years*. Our strong, durable finish will help defend against extreme weather and direct sun without chipping, peeling or cracking, leaving your entry door beautiful for years.

Clopay is the only garage door manufacturer to offer complementing entry doors, providing homeowners with coordinated products for a cohesive design statement to enhance any home's style.

It's important to note that a complementing color is different than a true color match.

With complementing designs, the products may have completely different substrates and finishing processes (like a steel garage door with a fiberglass entry door). The panels, the glass styles and the finish colors will be similar and complementary, but not exactly the same. They are designed to work together beautifully on the home façade, to elevate the overall impact of any home's curb appeal.

We always recommend requesting a product sample from your Clopay dealer to compare for yourself.

complement

DESIGNER GLASS

DESIGNER GLASS collections

ARTFULLY CRAFTED DESIGNER GLASS

Clopay® designer glass is created using an array of fascinating art glass pieces set with patina, satin nickel or brass coming to create stunning patterns and beautiful style.

Handcrafted designer glass brings light and a distinctive look to your home. Each piece is unique with intentional aesthetic “imperfections” and variations that reflect the authentic process and add to the character of the finished product.

Clopay offers a wide variety of designs, sizes, coming and matching sidelite and transom options to complement every architectural style. Choose your favorite and find the door styles they create on the following pages.

PRIVACY CONCERNS

Many Clopay decorative glass designs, while letting light in, offer privacy as well. See our Privacy Rating for each glass design indicating its level of obscurity. Glass close-ups and obscurity details are shown with each glass collection on pages 20–51.

KINSLEIGH™ glass

Clear Bevel Glass Glue Chip Glass

SIMPLY TASTEFUL

Kinsleigh™ glass features a simple, refined design that stresses serenity and clarity. The clear beveled blossom focal point is set in glue chip glass and framed within clear bevels. This clean, subdued design makes a beautiful addition to any style home and is particularly well-suited for smaller, understated homes.

TREVIAN™ glass

CONTEMPORARY CHIC

Urban style emerges from a central point with clear bevels accented by granite and glue chip glass for a design that echoes the city's tempo outside your door. Although a perfect choice for modern homes, Trevian glass also complements Mission styles, lending contemporary flair to Bungalow and Transitional homes.

Multi-Point Locking Systems

MECHANICAL

**LIMITED
LIFE
WARRANTY**

Trilennium® multi-point locking systems deliver 3x the strength, 3x the security and 3x the performance with one multi-point locking system, resulting in maximum peace of mind and homeowner satisfaction.

One movement of the key or thumbturn activates all three bolts, drawing the door into perfect alignment with three true deadbolts. Plus, it's easy to use. Just one turn of the lever disengages all three bolts for easy operation time after time.

- Available finished or unfinished
- Factory installed

ADDITIONAL OPTIONS

Additional installation options, such as storm door preparation, brickmould or interior casings are available.

Contact customer service at 1-800-2CLOPAY (225-6729) or see your Clopay Dealer for more information.

ROUGH OPENING CHART

Dimensions below are for 6'8" high doors. See notes at left for 7' and 8' high doors and additional options.

ROUGH OPENING CHART

Dimensions listed at right are for the most common 6'8" door configurations with rough opening dimensions. For additional options and heights, see notes below.

OUTSWING UNITS

For units with bumper-style sill, subtract 1" from prehung and rough opening for height. For brick-to-brick size, add 1/2" to all configurations.

THRESHOLD

On inswing units the threshold height is 1-3/8", which allows for approximately 1" opening clearance. If a spacer is needed under the sill to allow for added clearance, adjust the rough opening requirement accordingly.

ADA ACCESSIBLE SILLS

For units with ADA sills, subtract 7/8" from the prehung size. ADA sills can be used only on boxed units. ADA sills available in Mill finish only.

7' & 8' TALL DOOR SYSTEMS

Add 4" to all heights for 7' doors and 16" for 8' doors. See your Clopay Entry Door Dealer for availability.

16" SIDELITES

Add 2" per sidelite for 16" sidelites.

CUSTOM SIZES

For custom door heights, call customer service with requirements. Additional charges and longer lead times apply.

SINGLE DOOR/SINGLE SIDELITE				
Nominal Door Slab Width	Nominal Sidelite Slab Width	Actual Prehung Unit Size	Nominal Rough Opening Size	Nominal Brick-to-Brick Measurement

36"	14" (x2)	68-1/2" x 81-5/8"	69-1/4" x 82-1/8"	71" x 82-7/8"

DETERMINING THE ROUGH OPENING

To Determine the Rough Opening

1. Between the studs, measure width at top, center and bottom of opening. Record the smallest measurement.
2. From floor up to the bottom of the header, measure height at both sides of the opening. Record the smallest measurement.

DOOR SWING & HANDING CHART

Inswing Units

Door swings open to the inside of home

Outswing Units

Door swings open to the outside of home

TRANSOMS

602 (14-3/4" ht.)			603 (14-3/4" ht.)			742 (14-3/4" ht.)	
12"	36"	12"	14"	36"	14"	72"	
14"	32"	14"					

Add transom height to door dimension listed (prehung, rough opening, brick-to-brick).

Transoms are not available for 30" doors.

Continuous head & sill construction must be used when ordering a transom.

Custom-sized rectangular *clear glass* transoms may be ordered.
