## CLEANING FROSTED GLASS

**SPRAYWAY®**  
Glass Cleaner

**Oil marks, grime and dirt** are easily removed from frosted glass using Sprayway glass cleaner, a soft, clean cotton cloth and a little elbow grease.

**To Clean**, simply spray glass cleaner over stain and allow the foam to penetrate for a few minutes.

**Wipe clean** with soft cotton cloth.

Using a hair dryer will speed up the drying process, particularly in colder climates.
