REMOVING MOLD AND MILDEW ON COACHMAN® COLLECTION OVERLAYS

The following brand name products may also be used for cleaning and preventing mold and mildew:

For Cleaning

- Mold Armor® Mold & Mildew Stain Remover
- Zep® Mold Stain & Mildew Stain Remover

For Prevention

- Mold Armor® Mold Blocker
- Zep® Clear Shell™ Mold & Mildew Inhibitor

These products can be found online or at your local hardware store (check for availability). Use and reapply as necessary according to the instructions on the bottle/container.

For any questions regarding Cleaning Coachman Collection or any Clopay garage doors, please contact Clopay Customer Service at 1-800-2CLOPAY (225-6729) or visit us at www.ClopayDoor.com.

The following basic solution can be used for cleaning exterior mold and mildew:

- 1/3 cup powder laundry detergent
- 2/3 cup trisodium phosphate (TSP)
- 1 quart household bleach
- 3 quarts water

Note: Do not use a stronger concentration as it may cause damage to the surface.

Follow these basic guidelines when cleaning:

1. Always wear protective eye wear and skin protection when using harsh cleaning compounds.
2. Apply the solution with a soft bristle brush using medium pressure.
3. Rinse well with clear water after cleaning.
