

### VERTISTACK™ DOOR SYSTEM LIMITED WARRANTY

Subject to the terms of this Limited Warranty (“Warranty”) and any warranty policies and procedures in effect at the time a notice of a claim is received, as administered by Clipay Corporation (collectively, “Clipay”, “we”, or “our”), we will repair or replace – at our sole discretion – any door components, hardware, springs/spring components, or electrical components (collectively, “Parts”) that we confirm through persons authorized by Clipay (“Dealer”) to be defective in material or workmanship, so long as timely written notice is provided within the applicable Warranty periods provided below. The VertiStack™ door system (the “Product” or “VertiStack”) is designed and sold for commercial applications only, and any non-commercial applications (such as residential applications) shall be considered a misuse of the Product and void this Warranty. This Warranty shall apply to and benefit only the certified VertiStack Installer (as defined below) who is purchasing and installing the product and is nontransferable. For the purposes of clarity, only the certified VertiStack Installer can submit and make warranty claims.

To maintain and not void this Warranty, and to ensure proper operation of the Product, each of the following must be strictly followed:

- the Product must be installed, handled, and maintained/repared by a Clipay-approved dealer who is certified by completion of all manufacturer-required VertiStack™ Training (“VertiStack Installer”) and strictly in accordance with the VertiStack installation manual.
- The Product must be operated at all times using only the motor provided. The included auxiliary hand chain is for emergency use only, with frequent and/or excessive use of the hand chain constituting misuse of the Product.
- Performing unauthorized modifications to the Product or any damage resulting from such modifications, improper wiring, or line voltage fluctuations will void all electrical and possibly the Product Warranty itself.
- The Product must be maintained solely by a VertiStack Installer at maintenance interval(s) required in the Product manual and by use, including – but not limited to – annual testing and maintenance and acceptance testing. All Product repairs must be performed by a certified VertiStack Installer. All replacement Parts used must be supplied directly by Clipay. Proof of purchase and service records reflecting maintenance and/or repairs must be retained and produced upon request.
- All installation and operational guidelines must be strictly followed to help ensure safe door operation and installation. UL or FM-listed and labeled doors that are installed outside of the abstract of the listing and specific dimensions can result in catastrophic failure and void any performance Warranty of the Product.
- The Product shall not be operated when external temperatures are below 32°F/0°C, which may cause damage to the door and void this Warranty.
- Incoming line voltages must fall within ranges established by ANSI C84.1 (ANSI Standard for Electrical Power Systems and Equipment) and wiring must be connected in accordance with applicable standards established by the current edition of NFPA-70 (NEC) for commercial door operators.

All Warranty periods begins from the date of Product shipment. We reserve the right to inspect and/or verify any claimed Product defect or issue, as well as the right to replace Product(s) and/or its components with a similar or like product or component, all within the sole discretion of Clipay. All replacement materials will be shipped via standard ground transportation, and expedited delivery charges are not included under this Warranty. Subject to the terms of this Warranty, the scope and type of labor costs reimbursable for Warranty claims filed within one (1) year of the date of Product shipment shall be within the sole discretion of Clipay, but in no event shall include labor beyond the repair, replacement, reinstallation, and/or installation of replacement Parts. All labor costs associated with Warranty claims submitted after **ONE (1) YEAR** from the date of shipment shall be your sole responsibility. All electrical components are specifically excluded from any labor cost reimbursement.
